

Ayush Mishra

+91-9123161785 — ayushmishra0003@gmail.com — GitHub — LinkedIn

TECHNICAL SKILLS

- **Languages:** C++, C, Python, JavaScript
- **Backend:** Node.js, Express.js, REST APIs, API Design, Asynchronous Programming
- **Frontend:** HTML, CSS, EJS, React.js
- **Databases:** MongoDB (Indexing, Aggregation), MySQL
- **Core CS:** Data Structures & Algorithms, Operating Systems, Database Management System, Computer Networks, Object-Oriented Programming
- **Tools:** Git, GitHub, VS Code, Debugging, API Integration, AI Agent Development

EXPERIENCE

★ **Trainee Software Engineer — Webkul Software Pvt. Ltd., Noida** Feb 2026 – Apr 2026

- Engineered 10+ scalable REST APIs using Node.js and Express, reducing response latency by 30% via optimized routing and query tuning.
- Resolved 20+ production bugs impacting API performance and uptime, reducing failure rates and improving system stability.
- Conducted code reviews and enforced best practices, enhancing maintainability and reducing technical debt.

★ **Teaching Assistant — Raj Kumar Goel Institute of Technology** Apr 2024 – Jun 2025

- Mentored 300+ students in Data Structures and Operating Systems, improving problem-solving proficiency and concept clarity.
- Delivered structured sessions on algorithms and memory management, simplifying complex topics for large cohorts.

EDUCATION

Raj Kumar Goel Institute of Technology (AKTU), Ghaziabad

B.Tech in Computer Science and Engineering

June 2022 – May 2026

CGPA: 8.0/10

PROJECTS

★ **Complaint Management System** Apr 2025 – Jun 2025

Node.js, Express.js, MongoDB, React.js, Ejs

- Built a role-based complaint management system used by 3 user types, reducing manual tracking effort by 40% and improving resolution visibility.
- Implemented complete lifecycle management, improving resolution efficiency and transparency.
- Integrated OTP authentication and email notifications, strengthening system security.
- Built concurrent request handling mechanisms, ensuring consistent performance under load.

★ **ProgTracker – Coding Analytics Platform**

Mar 2024 – May 2024

Node.js, Express.js, MongoDB, React.js

- Built a coding analytics platform to track performance trends and generate actionable insights.
- Developed REST APIs to handle concurrent users with consistent performance.
- Reduced dashboard load time by 50% through MongoDB indexing and query optimization.
- Designed efficient backend workflows for low-latency data processing.

★ **Autonomous Conversational Agent**

Jun 2023 – Nov 2023

JavaScript, NLP, AI APIs

- Engineered an NLP-based chatbot with intent detection and sentiment analysis, improving response relevance and reducing user query resolution time.
- Integrated external AI APIs for real-time response generation and enhanced user engagement.

ACHIEVEMENTS

- Solved 1500+ DSA problems across LeetCode, Codeforces, GeeksforGeeks, and HackerRank.
- Strong in data structures, algorithms, and system design; optimize time-space complexity.
- Certifications: C++, SQL, Git, AI Tools, Agentic AI, and Product Management (Coursera, GeeksforGeeks).
